SCHOOL LANGUAGE COMMITTEE

As our world becomes increasingly competitive, it's more important than ever that we all work together to ensure the next generation has the tools they need to thrive. Our language committee was formed with a mission--to help mould confident speakers. With the school's faculty and student members, it's our goal to prepare the students for their future by instilling confidence and ensuring they are equipped with the necessary tools of the world. The language committee echoes the school's slogan, "Darkness to Light," and seeks to provide each student of the school, a competitive advantage over other students.
